SUBJ: Letter from the Director

MEMO:

Dear Friend;

It is an exciting time that we live in! Assemblies of God World Missions (AGWM) could be described in many ways, and near the top of the list is **GROWTH**. There are now over 64 million Assemblies of God (AG) constituents around the world and another new believer is added every 14 seconds!

There are over 2700 AGWM missionaries around the world serving this growing church. Our endeavor...see the Gospel taken to the ends of the earth. Builders International exists to **PARTNER** with our missionary body and national churches to build facilities necessary to see the gospel taken everywhere.

This exciting growth is where you come in. There are opportunities all over the world to serve this growing church with their construction projects. When you help build a building, you lay a foundation that will touch generations to come. We believe every project is more than a building, but a **CATALYST** to help take the Gospel to all nations.

The opportunities to partner include joining a team, leading a team, volunteering professional engineering skills, volunteering professional trade skills, becoming a member of "The Foundation", and more.

Thanks for your interest and we look forward to hearing from you!

Blessings,

Ryan Moore
Director

BUILDING dreams. FULFILLING visions.
